“I think that a chef has a responsibility to convey a kind of moral conviction through gastronomy. My belief is that a restaurant kitchen should not be wasteful. I believe that the trademark of a chef is his own story, which he offers to guests on a plate expressed in flavors. In addition to respecting the gastronomic traditions of Órség and the Pajta’s own history and defining values, I also consider courage and a willingness to experiment to be an important spice. I want to offer guests an experience that can only be experienced in the Pajta”
